PROFESSIONAL SUMMARY

Results-driven Laboratory Analyst with 20 years of experience in pharmaceutical quality control and analytical laboratory operations within highly regulated manufacturing environments. Extensive experience performing analytical testing of raw materials, packaging components, finished products, and controlled pharmaceutical substances under GMP, GLP, SOP, FDA, and DEA regulations. Skilled in laboratory instrumentation, data analysis, documentation practices, investigations, and regulatory compliance. Recognized for strong attention to detail, problem-solving abilities, teamwork, and the ability to manage multiple priorities in fast-paced environments.

TECHNICAL SKILLS

- GMP, GLP, GDP & SOP Compliance
- FDA & DEA Regulatory Compliance
- Analytical Testing & Laboratory Documentation
- OOS/OOT Investigation Support
- Finished Product & Raw Material Testing
- Train the trainer
- Karl Fischer, FTIR, NIR, UV/VIS, particle size (Malvern, air jet)
- HPLC, GC, TOC, FTIR, AA Spectroscopy
- Method Validation & Data Integrity
- Batch Release Support
- LIMS, Empower, Chromeleon, SAP
- Bilingual: Spanish & English

PROFESSIONAL EXPERIENCE

JOHNSON AND JOHNSON INOVATIVE MEDICINE GURABO, PR NOVEMBER 2025 – PRESENT

Laboratory Analyst

- Perform analytical testing of controlled finished pharmaceutical products in compliance with GMP, SOP, FDA, and DEA regulations.
- Conduct laboratory testing including Karl Fischer water content, appearance, release rate, FTIR, NIR, IR, and pH analysis.
- Prepare samples, reagents, and standard solutions following approved laboratory procedures.
- Document, review, and report analytical results accurately using laboratory systems and controlled documentation practices.
- Support batch release activities by ensuring timely and accurate laboratory testing.
- Identify and escalate OOS/OOT results, deviations, and laboratory discrepancies to supervision.
- Maintain compliance with data integrity, laboratory safety, and regulatory requirements in a highly regulated pharmaceutical environment.

CEDIPROF (NEOLPHARMA)

CAGUAS, PR

JUNE 2024 – FEBRUARY 2025

Laboratory Technologist

- Conducted analytical testing and method validations in R&D for new pharmaceutical products.
- Performed assays, organic impurities, content uniformity, water content, pH, and loss on drying testing.

Yajaira Ortiz Ruiz

📍 HC 06 Box 10488 Yabucoa, PR 00767
📞 787-399-0851
✉ yorortiz@yahoo.com

- Utilized analytical instrumentation independently while maintaining compliance with SOPs and GMP requirements.
- Prepared samples, solutions, and reagents while ensuring accurate documentation practices.
- Reported OOS/OOT results and laboratory discrepancies to supervision.
- Supported laboratory investigations and compliance initiatives.

BRISTOL- MYERS SQUIBB

HUMACAO, PR

SEPTEMBER 2014- APRIL 2024

Specialist, Chemical Laboratory Analyst

- Performed chemical and physical analysis on raw materials, packaging components, and finished products.
- Carried out analysis like: Assays, Chromatographic Purity, Content Uniformity, Disintegration, description, visual inspections, identification, pH, % moisture, loss on drying, loss on ignition, residue on ignition, heavy metals, arsenic test, lead test, IR, dimensions, UV spectroscopy analysis, particle size etc.
- Trained laboratory analysts and contributed to SOP and analytical report sheet documentation improvements.
- Participated in 5S projects, internal audit activities and lead documents simplification project in the areas of Granulation and Compression..
- Ensured compliance with USP, EP, JP, and BP pharmacopoeial requirements.
- Supported continuous improvement initiatives within the quality organization.

MCNEIL Healthcare LLC

LAS PIEDRAS, PR

JULY 2013- SEPTEMBER 2014

Quality Control Technician

- Performed laboratory testing of raw materials following company procedures and USP standards.
- Reviewed analytical data and maintained laboratory documentation accuracy.
- Reported quality issues and supported laboratory safety compliance.
- Assisted with routine laboratory operations and quality investigations.

WARNER CHILCOTT, LLC

FAJARDO, PR

MARCH 2006- JANUARY 2013

Analyst

- Conducted assays, identification, IR, UV, residual solvents, wet chemistry, and heavy metals testing.
- Performed microbiological sampling and analytical data verification.
- Approved raw materials and trained newly hired analysts.
- Supported manufacturing operations through timely laboratory testing and documentation.
- Maintained sample tracking and laboratory compliance activities.

EDUCATION

2006

Bachelor's degree in Natural Sciences / Major in Industrial Chemistry

University of Puerto Rico | Humacao, PR
